SUMMARY

Systems Administrator owning end-to-end infrastructure for a multi-branch, FFIEC-regulated community bank. Specializes in Microsoft cloud and identity (Azure, Entra ID, Intune, Microsoft 365), Windows Server, and enterprise networking, with delivery proven through banking audits and examinations.

RELEVANT SKILLS

Cloud & Identity: Azure, Entra ID, Microsoft 365, Intune, Conditional Access, MFA, SSO
Infrastructure & Virtualization: Windows Server, Hyper-V, Active Directory, DNS, DHCP, NPS, AD CS / PKI
Security & Networking: RADIUS, certificate-based auth, Meraki MX, Cisco, Microsoft Defender for Endpoint
Automation, Monitoring & Data: PowerShell, Zabbix, SNMP, SQL Server, Windows Server Backup, ConnectWise
Compliance: FFIEC, audit & examination support

RELEVANT EXPERIENCE

Systems Administrator | Cattaraugus County Bank | July 2024 – Present

- Sole administrator for all IT infrastructure across 7 branches and 60+ users as a single point-of-contact
- Implemented highly available networking with 99.99% uptime during tenure
- Managed a hybrid virtualized environment across on-prem Hyper-V and Azure compute
- Ran disaster recovery testing and managed with Windows Server backup to meet regulatory needs
- Configured redundant Microsoft Servers for Active Directory, DHCP, DNS, and network policy servers
- Deployed policies, patches, and applications to 100+ devices using Intune and group policy
- Utilized PowerShell scripting to automate Entra onboarding and vital infrastructure notifications
- Minimized customer calls to voicemail by 95% with call centers and overflow groups in Nextiva
- Designed and deployed an enterprise SQL database to track employee system access, eliminating spreadsheet-based tracking and improving audit readiness
- Minimized lockouts and maximized efficiency with Entra ID SSO and certificate-based auth

Network Administrator | Self-employed | August 2022 – Jul 2024

- Deployed wired and wireless networks for residential clients as an independent contractor
- Installed and configured routers, switches, wireless access points, and cabling
- Worked directly with clients to assess needs and to recommend equipment

NOTABLE PROJECTS

- **Wi-Fi Hardening:** Replaced shared-password Wi-Fi with certificate-based EAP-TLS authentication using RADIUS, AD CS, and highly available NPS reducing our attack surface
- **Entra Onboarding Automation (SCIM):** Automated new-hire onboarding by provisioning user accounts through SCIM with the Microsoft Entra provisioning agent
- **AI Committee:** Founded and chair a cross-functional AI committee with senior leadership to govern AI adoption and evaluate use cases, driving a 50% company-wide efficiency gain
- **AI-Powered Intranet:** Built a SharePoint intranet with a Copilot Studio agent for policy Q&A, cutting HR/IT questions by 50%; automated employee directories via Power Automate
- **Zabbix Monitoring:** Built a docker container Zabbix stack on Hyper-V using Ubuntu with SNMP traps for proactive alerting and executive SLA reporting

EDUCATION

B.S. | Computer Science
Empire State College
Graduated Dec 2023 | GPA: 3.89

A.S. | Computer Science
Jamestown Community College
Graduated Sep 2022 | GPA: 3.50

CERTIFICATIONS

- CompTIA Network+ (Apr 2026)
- Microsoft Azure Fundamentals - AZ-900 (Jan 2025)
- Microsoft Azure Administrator - AZ-104 (in progress)
